Motivated Computer Science student with expertise in MERN Stack development and problem-solving. Experienced in developing responsive web applications and real-time projects using React.js, Node.js, MongoDB, and Express.js. Passionate about creating impactful digital solutions and continuously learning modern technologies.

EDUCATION

Seth Jai Prakash Mukand Lal Institute of Engineering & Technology (JMIT)

Radaur, Yamuna Nagar, Haryana

Bachelor of Technology, Computer Science Engineering

08/2022 – 06/2026

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML, CSS

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication

Database: MongoDB, SQL

Programming Languages: C, C++

Core Computer Science Concepts: OOPs, Data Structures & Algorithms

EXPERIENCE

CodSoft

07/2024 – 10/2024

Web Development Intern

Virtual

- Developed scalable web applications using MongoDB, Express.js, React.js, and Node.js to solve real-world problems.
- Integrated backend APIs with React.js to create dynamic and responsive user interfaces.
- Worked with frontend technologies alongside backend services to build user-friendly and interactive applications.
- Collaborated with cross-functional teams to design, implement, and optimize full-stack solutions for seamless user experiences.

PROJECTS

[Online Aptitude Test Management System](#)

- Developed a secure and professional platform using the MERN Stack for college students to take aptitude tests online. Built with responsiveness in mind—every interaction feels native whether you are on desktop, tablet, or mobile. Our platform ensures academic integrity with full screen mode, tab switching prevention, and comprehensive monitoring. Faculty can access detailed reports, performance trends, and student improvement metrics. Support for Multiple Choice, Multiple Select, and Numerical Answer Type questions
- Enhanced test security through authentication and controlled access.
- Improved result accuracy and provided instant feedback to users.
- Automated the test evaluation process, significantly reducing manual effort.

[Chat Application](#)

- Developed a full-stack real-time chatbot application using the MERN stack and Socket.io, featuring secure user authentication, instant messaging, and dynamic real-time communication.
- Built a responsive and interactive React.js interface with scalable Node.js and Express.js backend APIs, while using MongoDB for efficient data management and seamless user experience across devices.
